

FROM THE DIRECTORS

August 2007

Dear Athletes-

Welcome to the third edition of Baja Travesia. We are excited to once again bring a top level expedition style event to North America. Baja Travesia is and will continue to be a challenging event that will test the skills and creativity of every team that comes to Baja.

The last few months we have enjoyed some down time, traveling a bit, and enjoying the California summer. Our team is in full swing of developing the course now, and the event is developing into something very substantial for the expedition racing circuit.

The BIG NEWS: we have just confirmed that Baja Travesia has been awarded the prestigious honor of joining Adventure Racing World Series. As such, BT '08 is a qualifier for the Adventure Race World Championship and will be the only such qualifier in all of North America. Media will have a more significant presence.

We are lucky to have the undiscovered terrain of Baja California in our backyard, a virtual adventure racing playground that gives us the opportunity to create another brand new course. Just when you thought you've seen it all, there is more to be seen in Baja. This course will impress the most hearty of expedition racers. Guaranteed.

This year look for ocean paddling, alpine mountaineering, basic rope activities, desert trekking, mountain biking, canyoneering, and of course the infamous Baja Cars.

Some changes for 2008 include the need for all teams to bring support crew. Teams will once again bring their own boats and mountain bikes.

Due to the remoteness and point-to-point nature of this event, we will once again limit the number of teams so we encourage you to reserve your spot now.

Baja Travesia is no ordinary expedition event. It's a journey across the Baja Peninsula, an event that will challenge your team to the fullest and at the finish line reward you with the knowledge of your incredible accomplishment and memories for a lifetime.

Watch this site for updates and additional information. At the bottom of this page is a list of the website pages and the dates they have last been updated. You can check there to make sure you have the most current information.

We are having early registration from international teams, and we expect interest to increase as the news of our joining the AR World Series hits the circuit.

Pull your team together, train hard, practice your skills and join the Baja Travesia.

Saludos,

Karen, Paul and Antonio
Directors, Baja Travesia
